COTTAGE HIRE

# *Welcome*

Welcome to Riverline Cottage and Gardens.

Nestled in our serene garden stands a self-contained, replica stone cottage. The perfect place to spend a few romantic days away.

The cottage is fully equipped and built using recycled materials dating back to the 1850's, but contains all of the modern comforts without losing its cottage charm.

Guests staying at the cottage will be greeted by a complimentary bottle of Riverland wine and a gourmet tasting platter of local produce including cheese, dried fruits and cured meats. Also provided are gourmet breakfast provisions of locally sourced seasonal fresh fruit, orange juice, bacon and eggs.

While the cottage affords stunning views of our manicured gardens, guests who like to explore will be supplied with two bikes so they can ride the short distance to Loxton's main street or the banks of the breathtaking Murray River. Various walking tracks are close-by where you can observe native birds and other animals in their natural habitat.

Guests are welcome to roam the secure garden at their leisure. Your space and privacy will always be respected by us, the owners, who reside nearby on the property.

We welcome your enquiries.
